The standard carpets supplied by ThyssenKrupp Elevator are made of continuous multifilament and polypropylene yarns which are solution dyed for color fastness. They have a tight tufted level loop construction of 2,600 denier fiber, 3 ply with face weight of 20 oz. per square yard, 5/32 pile height, 10 stitches per inch, 1/10 inch gauge. The primary backing is 100% polypropylene with actionback secondary backing. The bright clear colors have outstanding stain and soil resistance. Meets requirements specified by ASME Code A17.1 Rule 204.2

Note: Colors may vary slightly from these printed facsimiles.
